PLAYLERS INFO HISTORY	C C STATUS

KL4-T TABLET MUSIC PLAYER

The KL4-T Tablet Music Player is a compact device, designed to output crisp digital music in retail, leisure and hospitality environments.

The player generates fresh playlists daily. By default it plays music automatically, without the need for any user interaction. Where sites require the ability to change playlists On Demand, they can use the touchscreen for fingertip control over their music.

kaleidovision.co.uk

• High quality sound acoustics

- Automatic music updates via the wi-fi connection
- Music playlists can be timetabled
- Auto-mix feature ensures professional mixes between tracks
- Auto-levelling feature ensures no volume issues between tracks
